#### **CULTURAL HERITAGE:**

Indian Culture and traditions have now become renowned all across the world. But seldom do we give a thought because things are done in certain specific ways. Find out amazing scientific reasons behind any five traditions in India. Write on an A4 sheet and support it with related pictures. For example: 1. Namaskar (Joining both palms together to greet)-There is a scientific reason behind the 'Namaskar'. Joining both hands ensure touching the tips of all the fingers together, which are linked to pressure points in the eyes, ears, and mind. Pressing them together is said to activate these, helping us remember that person for a long time. Take help of your parents or grandparents and get blessed by their experience.

#### **PLANT SEEDS & WATCH THEY GROW: (To be done in an A4 size sheet.)**

Plant any seeds (wheat, bean, Moong, mustard etc.) and watch the growth of the seedlings as they sprout from the seed while making sure to take proper care of them with just the right amount of warmth and water.

Method: Fill the container with soil. Plant seeds of same kind (Ex. Mustard, Tomato, Wheat, Bean, and Moong) inside the soil. Place the container somewhere, where it is warm, sunlight is good but try to avoid too much direct sunlight, a window sill is a good spot. Keep the soil moist by watering it every day (be careful not to use too much water).

Note down the development of germination process.

Collect the data for 1 week in the given format.

- Name of the seed: \_\_\_\_\_
- Date of sowing seeds: \_\_\_\_\_
- The day you observe something coming out of the soil then start filling the table in the given format

Day/date   Height of the plant (in cm)   No of leaves seen   Any other change
